

Executive Summary

DGC Contracting Ltd. is a full service provider in the Telecommunication Industry. They have their own staff and equipment available to handle any emergency or perform routine maintenance to your fibre optic facilities. We have new equipment and very experienced technicians who are well trained and work in a safe and courteous manner.

We are pleased to provide you with our equipment and labor rates. If there is anything we can assist you with, please do not hesitate to call.

For 13 years, DGC contracting has been providing underground installation services to leading Central and Northern Alberta telecommunication companies. From our rig operators to our engineers, our knowledgeable staff will provide you with personal, exceptional service. Companies we currently provide services to are TELUS, Fortis, Shaw, Rogers and we have subbed through Dixon to provide service to Rogers, Bell and Axia.
